GLOSSARY

[View Full Glossary](#)

• **Accident Indicator**

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada. Various events in a vehicle's history can indicate an accident, such as: salvage auction, fire damage, police-reported accident, crash test vehicle, damage disclosure, collision repair facility and automotive recycler records. Not every accident is reported and not all reported accidents are provided to CARFAX. Details about the accident (e.g. severity, impact location, airbag deployment) vary depending on the source of the accident indicator. CARFAX recommends you obtain a vehicle inspection from your dealer or an independent mechanic.

- According to the National Safety Council, Injury Facts, 2007 edition, 7% of the 245 million registered vehicles in the U.S. were involved in an accident in 2005. Over 75% of these were considered minor or moderate.
- CARFAX depends on many sources for its accident data. Each one of these sources has different processing times. CARFAX can only report what is in our database on 18.Apr.2008 10:18:32. New data will result in a change to this report.

Ohio Police Reports:

- Provide an estimate of the extent of damage in its accident reports for the following:
 - SEVERE: The vehicle cannot be driven from the accident scene due to severe damage or an injury. This level of damage often results in a Salvage or Junk title.
 - MODERATE: The accident damage affects the operation of the vehicle and/or its parts. Examples include broken windows, trunk lids, doors, bumpers and tires.
 - MINOR: The accident damage does not affect the operation of the vehicle. Examples include dented bumpers, fenders, grills and body panels. This level of accident should not compromise vehicle safety.
 - NO DAMAGE: The vehicle was not damaged.
- Are required if the estimated damage exceeds \$400
- Are released to CARFAX approximately 3 months after the accident date

• **First Owner**

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

• **Lease**

When someone leases a car from a dealer, the dealer actually sells the vehicle to a leasing company. The leasing company then collects payments for the vehicle from the new owner for 24, 36, 48 or more months. A leasing company can be an independent car dealer or a car manufacturer.

• **New Owner Reported**

When a vehicle is sold to a new owner, the Title must be transferred to the new owner(s) at a Department of Motor Vehicles.

• **Ownership History**

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1994 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states:

Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

- **Title Issued**

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

Rating:

Rating:

Rating:

The National Highway Traffic Safety Administration (NHTSA) provides 3 different ratings - [full-width frontal crash test](#) , [side impact crash test](#) , and [rollover resistance](#) . The frontal crash test

indicates how well the safety features and restraints will protect an occupant in a head-on collision. The side-impact test conveys the chance of a severe chest injury, while the rollover resistance rating estimates the risk of rolling over in a single vehicle crash. Go to [NHTSA](#) to learn more about these results.

Safety Recalls

NHTSA Safety Recalls:

Important: The following recalls were issued for the 1997 HONDA CIVIC HX by the National Highway Traffic and Safety Administration (NHTSA). To find out if a specific 1997 HONDA CIVIC HX still has open recalls that require repair, CARFAX recommends contacting an [authorized dealership](#) for more information.

Recall date:	10-15-1997
Units potentially affected:	9,558
NHTSA campaign number:	97V193000
Defective part or component:	INTERIOR SYSTEMS:PASSENGER RESTRAINTS:AIR BAG:FRONTAL:PASSENGER
Description:	Vehicle Description: Passenger vehicles. The front passenger air bag modules have been improperly assembled. the cloth flaps covering the folded air bag may have been tucked in too far. This condition could prevent proper deployment of the air bag. In a crash, an improper air bag deployment could increase the risk of injury to a front seat passenger. Dealers will repair the front passenger's air bag module to prevent this problem from occurring.

This 1997 HONDA CIVIC HX safety recall information was provided by the Insurance Institute for Highway Safety, Highway Data Loss Institute and is derived from the [National Highway Traffic and Safety Administration](#) list of safety recalls. Please call the National Highway Traffic and Safety Administration Auto Safety Hotline at 1-888-DASH-2-DOT (1-888-327-4236) to report safety defects or to obtain information on cars, trucks, child seats, and highway or traffic safety. CARFAX does not review, validate or edit the information and statements provided by the National Highway Traffic and Safety Administration, which do not represent the opinion of CARFAX.

New Car Test Drive Review

NewCarTestDrive.com

Category:

Summary:

Review:

Still the small car gold standard.

By Ray Thursby, NewCarTestDrive.com

From the very beginning, the Honda Civic has been an exceptional value for buyers looking for a mix of sophistication, solid engineering and driving pleasure in a low-maintenance, fuel-sipping small car. In its latest form, the Civic continues the tradition.

The only caveat to be offered here is pricing. And the latter concern has only to do with the EX model; pick an HX, LX or DX, or even an ultra-plain CX hatchback, add those items you can't live without, and the value is unquestionable.

In any case, give the CVT-equipped HX Coupe a trial spin. As a functional and efficient innovation, it adds another techno-credit to the Civic's long list of achievements. Honda is testing market response to the CVT initially only in the coupe, but we expect to see it become an across-the-option soon.

Ever since its debut in 1973, the Civic has been the car that defined its class. And that's still true today.

Overview:

Much of the credit for elevating the status of inexpensive subcompacts can be given to Honda. Before the Civic came along more than two decades ago, low-buck offerings tended to be little more than alternatives to used cars, desperation purchases made by the financially challenged.

That's certainly not the case now. Clever engineering, good assembly quality and a comprehensive menu of features both standard and optional have made cars in this class, the Civic among them, more than palatable. They can--and do--offer driving pleasure and surprising comfort on top of relatively low price tags.

The key word in the last sentence is "relatively." With stickers edging toward the \$20,000 mark for fully loaded Civics, alternatives go beyond the likes of Toyota Tercels, Mitsubishi Mirages, Nissan Sentras, Dodge/Plymouth Neons and others of similar size, price and packaging. For example, a Ford Contour, Nissan Altima or even Honda's own Accord can cost less than a top-of-the-line Civic EX sedan (from \$17,675, including destination), while offering more in the way of interior space.

But a sensible Civic, one equipped well but not lavishly, remains an exceptionally good value. And at least one Civic model offers a novel and effective technical feature not found on any other car sold in the U.S.
